

Jyothi Ajjarapu

Full Stack Developer (React / Java)

Gerlingen, 70839, Germany | +49 155 63738857 | jyothi.ajjarapu01@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFILE

Full-stack developer with production experience in React and Java, currently deepening backend skills in Spring Boot through hands-on project work. Comfortable across the full development lifecycle — from building REST APIs and UI components to cloud deployment on AWS and Docker. M.Tech in Computer Science (IIT Jodhpur). Based in Germany with an unrestricted work permit — no visa sponsorship required. German B1.

WORK EXPERIENCE

Full Stack Developer

Jul 2024 – Feb 2025

Oculon.ai, Hyderabad, India

- Developed full stack features using React and REST APIs, contributing to both frontend UI development and backend data integration.
- Integrated REST APIs to fetch and process external data, enabling dynamic query workflows and visualisation through interactive AG Grid tables.
- Built reusable UI components and improved frontend architecture to enhance code maintainability and scalability.
- Contributed to frontend migration efforts from React to Next.js and from CSS to Tailwind CSS, gaining hands-on exposure to modern frontend tooling.
- Worked across the full development lifecycle, from feature development to deployment support, debugging and basic testing, ensuring stability and correct functionality.

Application Development Associate

Dec 2020 – May 2021

Accenture Solutions, Hyderabad, India

- Worked in an enterprise Linux (RHEL) environment supporting application deployments and system operations for a telecom client.
 - Used Docker containers to support application deployment across development, pre-production and production environments.
 - Monitored and triggered CI/CD pipelines using Jenkins, collaborating with development teams to manage builds and release deployments, and took part in on-call support and incident management, resolving deployment issues via Jira.
-

PROJECTS

SplitEase — Personal Project

Apr 2026 – Jul 2026

Spring Boot, Spring Data JPA, Spring Security, MySQL/H2, JWT, Docker

- Built a group expense-sharing backend as a self-directed project to strengthen Spring Boot skills, with JWT-based stateless authentication and a normalised relational schema modelling users, groups and expense splits.
- Implemented a greedy debt-simplification algorithm to compute the minimum number of payments needed to settle a group's balances.
- Wrote unit tests (JUnit 5, Mockito) covering split calculation and settlement logic, plus a full MockMvc integration test exercising the API end-to-end.
- Debugged and resolved Spring Security configuration issues, including authentication entry-point handling for unauthenticated requests.

Rakshak — Remote Healthcare Monitoring System for Indian Army (M.Tech Thesis)

Jul 2023 – May 2024

Android (Kotlin), AWS, Python, PHP, MySQL, Arduino

- Developed an end-to-end remote healthcare monitoring system integrating ECG, SpO2 and temperature data through a mobile application and secure cloud-hosted web platform for remote patient monitoring.

- Designed and implemented a custom PPG device using Arduino and optical sensors to measure heart rate and oxygen saturation, and integrated Spandan ECG reports to enhance system monitoring capabilities.
- Applied ECG signal processing and peak detection algorithms using Python (HeartPy) to filter noisy signals and improve data accuracy, then deployed the system on SSL-secured infrastructure, field-tested it in extreme environments, and presented it at the Indian Army Headquarters in Mathura.

EDUCATION

German Integration Course (B1) <i>VHS Reutlingen, Germany</i>	<i>Sept 2025 – present</i>
Master of Technology (M.Tech), Computer Science and Engineering <i>Indian Institute of Technology Jodhpur (IITJ), India — Grade: 1.6 (German scale) — 8.76/10</i>	<i>Jul 2022 – Oct 2024</i>
Bachelor of Technology (B.Tech), Information Technology <i>Osmania University, Hyderabad, India — Grade: 1.5 (German scale) — 8.91/10</i>	<i>Jun 2016 – Oct 2020</i>

TECHNICAL SKILLS

Frontend - HTML, CSS, JavaScript, React.js
Backend - Java, Spring Boot, Spring Data JPA, Spring Security, REST APIs, SQL (MySQL)
Tools & Cloud - Docker, Git, Jira, AWS (EC2), CI/CD with Jenkins

LANGUAGES

German - B1 ; **English** - Fluent (C1) ; **Hindi** - Fluent ; **Telugu** - Native

CERTIFICATES & ACHIEVEMENTS

Certificates - Flipkart Grid 5.0 (Level 2); AWS Security Fundamentals; Java and Python (IIT Bombay)
Awards - Certificate of Merit - Master of Technology, IITJ; Recognised by the Indian Army for the Rakshak project
Interests - Badminton, Photography, Clay Modelling, Singing, Sketching
